Media Advisory

289 pages; 53 Figures, and 11 tables
ISBN: 978-0-9882639-2-5

The **2015-16 State of the Future** contains the greatest assemblage of data, information, intelligence, and wisdom about the future ever organized in one source.

This is the 18th and best edition of the *State of the Future* produced by The Millennium Project with its 56 Nodes around the world and two regional networks (Europe and Latin America).

It clearly documents humanity's present situation; its challenges and opportunities; potentials for the future; and actions and policies that could improve humanity's outlook with unparalleled breadth and depth.

Board of Directors

Amb. John McDonald, Chair

"It is time for intolerance of irrelevant speeches and non-actions by leaders. The stakes are too high to tolerate business as usual," declares Jerome Glenn, lead author of the report and CEO of The Millennium Project -- referring to issues like future impacts of artificial intelligence, synthetic biology, organized crime, asymmetric warfare, and how to produce enough food, water, and energy for another 2.3 billion people in just 35 years.

Absolutely worth the reader's time... takes the reader much farther forward than most thinking.

Defense & Foreign Affairs Policy Journal

Strategic Planning for the Planet... remarkably articulate and prescient.

Foresight

Authoritative compendium of what we know about the future of humanity and our planet.

The Futurist

Invaluable insights into the future.

Ban Ki-moon, Secretary-General, United Nations

The report will be released on August 3, 2015.

Pre-publication copies are available for reporters; interviews can be arranged with Jerome Glenn by contacting The Millennium Project at +1-202-686-5179 and mobile phone +1-202-669-4410.
