Node Chair

MILLENNIUM PROJECT EL SALVADOR NODE
tony.carbonero@innbox.sv

1. EL SALVADOR NODE - created in 2018

1821-2021

200+ years of independence

1992 Signs Peace Agreements

3 legal currencies: SVC, USD, BTC

C.A. Region

Common past - common future?

Parlacen <https://parlacen.int/resoluciones>

Challenges:

Crime and Violence. Exception Regime 2.5+ years

Migration $\frac{1}{3}$ Salvadorans live abroad

Dependency on remittances 20-30% GDP

30% extreme poverty

Institutionality

Economic Growth

Employment

2. EL SALVADOR LEADERSHIP AND FUTURE CHALLENGES

SOME SUGGESTIONS FROM THE MILLENNIUM PROJECT FOR EL SALVADOR

- Tele-El-Salvador: connecting Salvadorans abroad with development opportunities in the territory
- Create a Future State Index for El Salvador (ES-SOFI)
- Propose a Committee for the Future in the Legislative Assembly and Central American Parliament (such as Finland or Mexico)
- The Minister of Education could declare increasing intelligence as a national challenge
- In parallel to STEM education, create self-managed updating processes at a personal pace (self-paced inquiry-based learning for self-actualization) including creativity, critical thinking, human relations, philosophy, entrepreneurship, self-employment, values and ethics
- Begin shift from mastering one profession to mastering combined skills
- Explore investments in synthetic biology and other Next Tech Improvement System (Ecosystem) to accelerate innovation
