Publication of “Dictionary of Futures Terms” & Gifted to Anıtkabir Library

Dictionary of Futures Terms was published in November 2023 by the Futurists Association in cooperation with Destek Publishing House.

This encyclopedic dictionary, which is available on the shelves of Turkey's leading bookstores and offered for online sale, has included information on the Turkish meaning, history, usage area and technology of the newly popular terms today by researching many domestic and foreign sources. Technologies, events, phenomena and processes that are used today and that will have a place in our lives in the future, even if they are not used yet, are defined within the scope of this dictionary, detailed with examples and supported with resources for further reading. Together with distinguished linguist and computer engineer Prof. Dr. Aydın Köksal, the Turkish usage of the terms in the dictionary was studied.

This year, when the 100th anniversary of the Republic of Turkey was celebrated with enthusiasm, the Futurists Association visited the great leader Mustafa Kemal Atatürk, the founder of Turkey, at his mausoleum, Anıtkabir, and the Dictionary of Futures Terms was gifted to the Anıtkabir Library.

World Futures Day 2023 & 2024

With the aim of realizing the 2003 and 2024 Future Day organizations with higher impact, a strategic cooperation agreement was signed and celebrated with Marketing Turkey, one of Turkey's most respected magazines and platforms.

"Awakening Movement" under the main heading of Sustainability in 2003; in 2004, under the main title of Artificial Intelligence, important speakers and our value partners were given under the themes of "The Future of Life with Artificial Understanding". The importance of future awareness and future literacy was emphasized at Future Days.

Event: José Luis Cordeiro - "The Death of Death"

The Futurists Association hosted internationally renowned futurist José Luis Cordeiro, author of *The Death of Death*, in Istanbul on October 11, 2023, and organized a special meeting for its members.

Sharing his foresight on longevity, José Cordeiro stated that he sees aging as a disease that can be treated and that, thanks to developing technologies, death due to oldness will become an option in the near future. He also emphasized that it is possible for them to become younger, as opposed to aging. José Cordeiro, who invited members of the Futurists Association to the conference on Longevity to be held in Los Angeles in October 2024, stated that he is trying to support the increase and acceleration of investments in technologies that will achieve "immortality" by traveling the world and sharing informations.

Event: Dr.Peter Bishop – “Future Literacy for K-12 Students”

Dr.Peter Bishop, founder of the Teach The Future (TTF) organization, which promotes Future Literacy at early ages, was held in Istanbul on April 15, 2024, hosted by the Futurists Association. Members of the Futurists Association and educators attended the event.

Bishop, who came to Turkey with the contributions of Teach The Future Türkiye Hub, gave a seminar on Future Literacy of K12 Students. Dr. started his academic journey in the field of "Future Studies" at the University of Houston in 1976. Bishop also served as the Director of the Foresight Master's Program at the same university. This time, he uses his almost half a century of knowledge, experience and experience to bring Future Literacy to K-12 students at an early age. For this purpose, he shared the work carried out in the Teach The Future organization he founded with the members of the Futurists Association. Dr. Peter Bishop, who teaches foresight to the world and prioritizes instilling this in children and young people with the Teach The Future organization. He announced that GEN Schools in Istanbul is working with TTF Türkiye Hub and is one of the 8 Future Schools in the world.

Dubai Future Forum Collaboration

Futurists Association signed an agreement with Dubai Future Forum, the new meeting platform of futurists in the world, and its organizer, Dubai Future Foundation, to exclusively represent Turkey.

Futurists Association's President participated in the 2023 Dubai Future Forum upon invitation. FutureTalks were organized to convey post-event impressions and discussed topics, and updated foresights were shared with members of the Futurists Association.

Erasmus+ Projects

National and international collaborations were developed and applications were made to Erasmus + projects and work on the projects started.

As part of our Green Future Builders project, we partnered with the University of Turku Future Research Center, Tuke University and MCI University Entrepreneurship Department.

Through this partnership, Futurists Association aim to educate young adults in the field of green entrepreneurship. Futurists Association will create their vision in the field of entrepreneurship by equipping them with techniques to understand, follow and predict future methodologies.

FutureTalks

Futurists Association continued to disseminate future knowledge with expert guests and speakers at FutureTalks events. FutureTalks is organized to share successful, pioneering, thought leaders who are experts in their fields and have made innovations, their visions for the future, experiences, foresight and suggestions.

“Our Nurses, Our Future” Seminar

May 12 is celebrated as Nursing Day around the world, and the week that falls this week is celebrated as Nursing Week. In the week celebrated for the 24th time this year, Health Institutions are trying to raise awareness and attract the public's attention on the topics of Health Services, the Presence of Nurses, and the Economic Power of Care Services with the events they organize. “Our Nurses, Our Future” by Acıbadem Health Group.

President of Futurist Academy Kamil Kazım Sarı, who participated in the webinar program held as a Guest Speaker with the message "It Makes a Difference", said: "How Did We Receive Our Heritage, How Do We Pass It On?" She shared her insights on “Nursing of the Future” under the title “Nursing of the Future”. Will Artificial Intelligence take away our nurses' jobs? While giving positive answers to the question with a Futuristic perspective, he also stated that our nurses will be able to progress in the field with the "Future Literacy" competencies they will gain today.

Futurist Newsletter @ Aposto

Futurists Association made a cooperation agreement with Aposto, which is a digital platform that has 339 thousand followers on Instagram and 40 thousand followers on X. In this way, the Futurist newsletter, issued every month exclusively for association members, was able to reach many more readers.

Broadcast Collaboration with Turcomoney Magazin

Regular articles and files are prepared for Turcomoney magazine which is a international journal of economics and finance. To date, 10 of our articles have been published in the magazine.

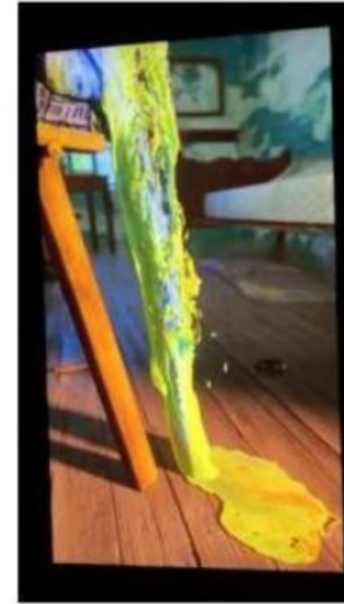

Zaman, Sanat, NFT

Teknoloji sektöründe çalışan insanların çok heyecanlandırın gelişmelerden birisi de NFT oldu. Nitekim NFT market hacmi, 2 milyar 367 milyon 872 bin 240 dolar seviyesinde. Bir teknoloji gelişip hayatımıza dahil oldukça, bağlantılı teknolojinin de gelecekte bize göz kırpmaya başlaması kaçınılmaz. Kripto dünyasına dahil olan insanların sayısının artması da NFT için aynı etkiyi yarattı.

Yaşadığımız zaman; dilimizde, kültürümüzde izlerini bırakarak akıp gidiyor, istesek de istemesek de seçimlerimiz hayatımıza, hayatımıza geleceğimize şekil veriyor. Dünya tarihine ait tek bir buluş, gerçekten kalıplaşmış düşüncelerimizi, alışkanlıklarımızı köklerinden değiştirebilir mi?

Yaşadığımız zamanın tarihteki diğer dönemlerden farklı olan bu yönü dilimize de yansımaya başladı. Son yıllarda dünya literatürüne bir kelime eklendi: "Tech-celeration". Henüz Türkçede bir karşılığı yok ancak anlamı "yaşanan olaylarla birlikte teknolojik gelişmelerin ve onlara olan adaptasyonun hızlanması" olarak tanımlanıyor. Bu kavramın en büyük kanıtı her geçen gün yükselen

Tarihte toplumlar, her zaman teknolojik gelişmeleri, bulunuşlarından bir süre sonra sindirebilmiştir. Bugün de şu ana kadar bahsettiğimiz kavramların çoğu günlük hayatta karşımıza sıklıkla çıkan kavramlar değil. Yine de Z kuşağından önce doğan herkes cep telefonları sayesinde bir teknolojik buluşun nereden nereye gelebileceğini çok çarpıcı bir şekilde gözlemleyebildi.

NFT PAZARININ HACMİ 2 MİLYAR DOLAR'I AŞTI

Teknoloji sektöründe çalışan insanların birçoğunu çok fazla heyecanlandıran gelişmelerden birisi de NFT oldu. Bu heyecana

dair en büyük kanıt her geçen gün yükselen
