

THE MILLENNIUM PROJECT
ACTIVITIES OF THE BULGARIAN NODE
2023-2024

Professor Mariana Todorova, PhD

The Millennium Project – The Bulgarian Node

- 2023-2024: Radio Rubric: Scenarios from the Future
- Two of my radio broadcasts, entirely dedicated to the Millennium Project after the meeting in Dubai.
- The first was dedicated to Jerry, Ted and Elizabeth and the second to the activities of Finland and Uruguay for the future committees in Parliaments, to Sherman Cruz's "Games of the Future," and Rosa Alegría's "Teach the Future."
- Numerous TV and other media appearances about the Millennium Project and Dubai. Several comments on national television.

The Millennium Project – The Bulgarian Node

- November 2023: A lecture in front of the entire diplomatic corps in Bulgaria as part of the Spanish Presidency on AI. I also presented the Millennium Project's initiative on AGI.
- December 2023: Media commentary on the EU AI Act, Biden's AI Act in the U.S., and the Bletchley Declaration, as well as the lack of frameworks for AGI.
- My Paper published at Stanford on existential risks.
- January 2024: A broadcast on one of the TV channels called *Social Network*, where I talked about Younsgook and the robot Grace.

The Millennium Project – The Bulgarian Node

- May 2024: Completion of a Foresight project on the role of AI for the European Cybersecurity Agency—ENISA.
- June 2024: A conference at the 8th Philosophical School of BAS, with the participation of Jerry Glenn, Sherman Cruz, and Lourdes Rodriguez.
- Master and PhD degrees in Future studies and AI.

The Millennium Project – The Bulgarian Node

- May and June 2024: An online conference, organized by WAAS, where on May 15, I was a panelist alongside Jerry on AGI, and on June 26, a moderator.
- June 2024: Participation in a program in China on AI in the city of Nanjing at the University of Information, Science, and Technology.
- July 2024: Writing a study on AI ethics and the challenges AGI faces.
- September 2024: Participation in a project between BAS and NATO, and other European institutions, on the role of AI in military decision-making.

Thank you!
