World Strategic Vision Chair
INNOVATION AND THE ACCELERATION OF THE FUTURE

Policía Federal Argentina
New inter-institutional project

We are a platform for the visibility and amplification of ideas that carry the future, innovative experiences and integrating leaderships. We believe that Argentina has an opportunity to overcome its structural problems, and that in order to do so, a profound resetting of the cognitive frameworks of our leadership is essential. We propose to make a new agenda of ideas fashionable, promoting successful experiences, and giving support and visibility to new integrating leaders. We work for a cultural change, which grows from the roots of civil society, so that politics is reordered on new bases, and so that our Argentina recovers a convergent development horizon.
First activity: First week of March 2022
Internal consensus and Vision for the Future

MICROLAB: With the aim that LadoAR members immerse themselves in a Future Challenge and explore, through “Future Thinking”, the challenges and opportunities. They are theoretical-practical laboratories that offer tools of Future Thinking, together with cutting-edge data and information on the Challenge of the Future to work, with the purpose of designing solutions in a key to the future.

The Microlab is designed and conducted by Karen Zeolla and Johanna Heinberg, members of LadoAR
